The chart displays the relative market share or importance of various semiconductor technologies. The technologies are categorized into two groups: discrete devices (left) and integrated circuits (right). The size of the bubbles indicates a percentage value, with a legend at the bottom showing 5 and 15%.

Technology	Category	Relative Size (Percentage)
MOSFET	Discrete	15%
IGBT	Discrete	5%
BIPOLAR	Discrete	5%
SBD	Discrete	5%
FRD	Discrete	5%
MOSFET	IC	15%
IGBT	IC	5%
IC	IC	15%

The chart displays the relative market share or importance of various semiconductor technologies. The technologies are categorized into two groups: discrete devices (left) and integrated circuits (right). The size of the bubbles indicates a percentage value, with a legend at the bottom showing 5 and 15%.

Technology	Category	Relative Size (Percentage)
MOSFET	Discrete	15%
IGBT	Discrete	5%
BIPOLAR	Discrete	5%
SBD	Discrete	5%
FRD	Discrete	5%
MOSFET	IC	15%
IGBT	IC	5%
IC	IC	15%

The chart displays the relative market share or importance of various semiconductor technologies. The technologies are categorized into two groups: discrete devices (left) and integrated circuits (right). The size of the bubbles indicates a percentage value, with a legend at the bottom showing 5 and 15%.

Technology	Category	Relative Size (Percentage)
MOSFET	Discrete	15%
IGBT	Discrete	5%
BIPOLAR	Discrete	5%
SBD	Discrete	5%
FRD	Discrete	5%
MOSFET	IC	15%
IGBT	IC	5%
IC	IC	15%

The chart displays the relative performance and cost of various semiconductor technologies. The technologies are represented by bubbles of different sizes and colors, arranged in a grid-like pattern. The technologies shown are MOSFET, IGBT, BIPOLAR, SBD, FRD, and IC. The chart is divided into two main sections by a vertical line. The left section contains bubbles for MOSFET, IGBT, BIPOLAR, SBD, and FRD. The right section contains bubbles for MOSFET, IGBT, and IC. The bubbles are arranged in a grid-like pattern, with MOSFET at the top, IGBT in the middle, and BIPOLAR, SBD, and FRD at the bottom. The bubbles are colored in shades of blue and green. The chart also includes a legend at the bottom right with a color key and a scale bar.

Technology	Relative Performance (Size)	Relative Cost (Color)
MOSFET	Large	Blue
IGBT	Medium	Green
BIPOLAR	Small	Blue
SBD	Small	Green
FRD	Small	Blue
IC	Medium	Blue

The chart displays the relative market share or importance of various semiconductor technologies. The technologies are categorized into two groups: discrete devices (left) and integrated circuits (right). The size of the bubbles indicates a percentage value, with a legend at the bottom showing 5 and 15%.

Technology	Category	Relative Size (Percentage)
MOSFET	Discrete	15%
IGBT	Discrete	5%
BIPOLAR	Discrete	5%
SBD	Discrete	5%
FRD	Discrete	5%
MOSFET	IC	15%
IGBT	IC	5%
IC	IC	15%

The chart displays the relative market share or importance of various semiconductor technologies. The technologies are categorized into two groups: Power Semiconductor Devices (PSDs) on the left and Integrated Circuits (ICs) on the right. The size of each bubble corresponds to a percentage value, as indicated by the legend at the bottom.

Technology	Category	Relative Size (Percentage)
MOSFET	PSD	15%
IGBT	PSD	15%
BIPOLAR	PSD	15%
SBD	PSD	15%
FRD	PSD	15%
IC	IC	15%
IC	IC	15%
MOSFET	IC	15%
IGBT	IC	15%
